Potential Downside Risk

Upside Scenarios

Scenario:	Portfolio Return:
Baseline: S&P 500 Up 20% What if the S&P 500 rises 20%, a performance it has exceeded 17 times in the last 50 years?	16.7%
Baseline: S&P 500 Up 10% What if the S&P 500 rises 10%, in line with its long term average since 1950?	9.9%
DC Delinquency: Benign Gridlock What if the government shutdown rhymes with past eras of gridlock, where a divided US Congress and Executive were mere background noise to a strong fundamentals picture?	8.4%
Tech Bubble: Software Eats the World What if tech giants continue to consolidate and exercise their monopoly power to grow revenue, profitability, and market caps?	4.8%

Downside Scenarios

Scenario:	Portfolio Return:
Past Crashes: Financial Crisis - Max Drawdown This scenario covers the global financial crisis from the top of the market in late 2007 until the market lows of early 2009, and examines the max draw downs of key levers over that timeframe.	-43.0%
S&P Valuation: 17 CAPE - Long Term Average What if the S&P 500 suffers a correction in valuation down to long term average levels (down to 17 CAPE)?	-34.8%
S&P Valuation: 21 CAPE - Typical Recession What if the S&P 500 experiences a typical recessionary correction, bringing the CAPE multiple down to 21 like in the 2003 recession?	-22.8%
Rising Interest Rates: Commodities Inflation	-13.2%

What is the 4% Rule

“...retirees who draw down no more than 4 percent of their portfolio in the initial year, and adjust that amount subsequent every year for inflation, stand a great chance their money will outlive them.”

The 4% Rule Revisited

“A 3% withdrawal has a better chance...
Retirees who are parked mostly in bonds
however, need to reduce their withdrawal rate:
T. Rowe suggests 2.8%.”

Market Cycles

S&P 500 Index

The sequence of returns has an average compounded annualized return of 9% over 25 years and year-to-year volatility that is consistent with a portfolio predominately comprised of stocks. Annual returns have been rounded to the nearest whole number. Source: Standard & Poor's.

Three Buckets

HOW MUCH RISK ?

Reasons Retirees Outlive Their Income

- Poor Investment Performance
(The Stock Market)
- Longevity *(multiplier)*
- Inflation
- Shift from Defined Benefit to
Defined Contribution Plan
- Low Interest Rate Environment
- Healthcare Costs

Longevity

If you're 65 today, the probability of living to a specific age or beyond

Common Sources of Income

PROTECTED INCOME

- OASDI (Social Security) Income
- Pension Income
- Private Pension Income (Annuity)

NON-PROTECTED INCOME

- Asset Drawdown
- Interest Income
- Dividend Income
- Salaried Income

Protected Lifetime Payments (aka Annuity Payments) Come in Many Forms

- OASDI (Social Security)
- Pensions
- *Private Pensions (Annuities
by Life Insurance Companies)*

Protected Lifetime Payments (Comparison)

	<u>Pension – Federal (Social Security)</u>	<u>Pension – State (Varies)</u>	<u>Pension – Company (Varies)</u>	<u>Pension – Private (Insurance Company)</u>
Protected Lifetime Payment Options:	Single Life Only	Single or Joint (if married only)	Single or Joint (if married only)	Single or Joint (if married only)
Liquidity Access (Any Reason):	None	None	None	Yes, up to a certain % each year
Liquidity Access (Qualified Care):	None	None	None	Yes, can get additional access
Growth Options:	Some, if wait until after FRA but stops at 70	None	None	Principle-Protected plus interest crediting
Beneficiary Options:	If Spouse: Higher of each benefit (<u>lose</u> <u>other</u>)	Depends on payout chosen	Depends on payout chosen	Spouse or no spouse, if value remains,
	If no Spouse: No further benefit			can pass to <u>any</u> beneficiary(s)
				Don't lose control, more access, ability to grow,
				more beneficiary options (not just spouse),
				protected lifetime payment options like others
				with <u>additional</u> "payout premium" based on age

Social Security

Old Age Survivor Insurance and Disability Trust Funds (OASDI)

The social security act was a “law enacted by President Franklin D. Roosevelt in 1935 to create a system of transfer payments in which younger, working people support older, retired people.”

Social Security

Social Security benefits are paid out monthly to qualifying individuals and include:

- Retirement Income
- Disability Income
- Medicare
- Medicaid
- Death and Survivor Benefits

Understanding Your Full Retirement Age (FRA)

Full Retirement Age

Year Born	Full Retirement Age (FRA)
1937 or earlier	65
1938-1942	65 + 2 months for every years after 1937
1943-1954	66
1955-1959	66 + 2 months for every year after 1954
1960+	67

Claim Your Benefits Early or Wait?

	Age of Collection					
FRA	62	63	64	65	66	67
65	80%	86.7%	93.3%	100%		
66	75%	80%	86.7%	93.3%	100%	
67	70%	75%	80%	86.7%	93.3%	100%

Waiting To Collect Individual Benefits

- If an individual elects to defer collecting benefits beyond FRA, the SSA will add retirement credits to his/her PIA for every month deferred up to 70.
- This increase is in addition to the COLA applied each year

Delayed Retirement Credits	
Year of Birth	Annual Increase to Age 70
1939-1940	7.0%
1941-1942	7.5%
1943 or later	8.0%

Married Couples Have More Options

Spousal Benefits for Retirement Age Spouses

- If you are married to an individual who is collecting Social Security retirement benefits and you are at least age 62, you may be entitled to collect spousal benefits.
- Must be married to his or her spouse for at least a year
- Spousal benefits will be equal to 50% of your spouse's PIA if you collect at full retirement age.
- If you are entitled to your own benefits and your PIA is less than 50% of your spouse's PIA, spousal benefits will be paid in addition to your own.

Collecting Spousal Benefits Early

Percentage of Spousal Benefits Collectable by Collection Age and FRA

Age of Collection						
FRA	62	63	64	65	66	67
65	75%	83.3%	91.7%	100%		
66	70%	75%	83.3%	91.7%	100%	
67	65%	70%	75%	83.3%	91.7%	100%

How Are Your Benefits Taxed?

- 1/3 of individuals collecting SS benefits pay income taxes
- High income individuals must include up to 85% of benefits as income
- Provisional income thresholds determine taxation

my Social Security - Sign In Or Create An Account

Get your free personal online *my Social Security* account today!

You probably plan to receive Social Security benefits someday. Maybe you already do. Either way, you'll want a *my Social Security* account to:

- Keep track of your earnings and verify them every year;
- Get an estimate of your future benefits if you are still working;
- Get a letter with proof of your benefits if you currently receive them; and
- Manage your benefits:
 - Change your address;
 - Start or change your direct deposit;
 - Get a replacement Medicare card; and
 - Get a replacement SSA-1099 or SSA-1042S for tax season.

Setting up an account is quick, secure, and easy. Join the millions and [create an account now!](#)

*With instant access to your *Social Security Statement* at any time, you will no longer receive one periodically in the mail, saving money and the environment. Thank you for Going Green!

Medicare

What are the parts of Medicare?

Part A (Hospital Insurance)

Helps cover:

- Inpatient care in hospitals
- **Skilled nursing facility care**
- Hospice care
- Home health care

See pages 25–29.

Part B (Medical Insurance)

Helps cover:

- Services from doctors and other health care providers
- Outpatient care
- Home health care
- Durable medical equipment (like wheelchairs, walkers, hospital beds, and other equipment)
- Many **preventive services** (like screenings, shots or vaccines, and yearly “Wellness” visits)

See pages 29–55.

Part D (Drug coverage)

Helps cover the cost of prescription drugs (including many recommended shots or vaccines).

Your Medicare Options

Original Medicare

- Original Medicare includes Medicare Part A (Hospital Insurance) and Part B (Medical Insurance).
- You can join a separate Medicare drug plan to get Medicare drug coverage (Part D).
- You can use any doctor or hospital that takes Medicare, anywhere in the U.S.
- To help pay your out-of-pocket costs in Original Medicare (like your 20% **coinsurance**), you can also shop for and buy supplemental coverage.

☒ **Part A**

☒ **Part B**

You can add:

☐ **Part D**

You can also add:

☐ **Supplemental coverage**

This includes Medicare Supplement Insurance

Medicare Advantage (also known as Part C)

- Medicare Advantage is a Medicare-approved plan from a private company that offers an alternative to Original Medicare for your health and drug coverage. These “bundled” plans include Part A, Part B, and usually Part D.
- In most cases, you can only use doctors who are in the plan’s network.
- In many cases, you may need to get approval from your plan before it covers certain drugs or services.
- Plans may have lower out-of-pocket costs than Original Medicare.
- Plans may offer some extra benefits that Original Medicare doesn’t cover—like vision, hearing, and dental services.

☒ **Part A**

☒ **Part B**

Most plans include:

☒ **Part D**

Your Medicare Options

Do I need to sign up for Medicare when I turn 65?

Answer a few questions to find out when to sign up, or review some common situations here:

In this situation:	You need to know:
You (or your spouse) are: • Still working at a job that has more than 20 employees • Have health insurance from that job	• You can wait until you (or your spouse) stop working (or lose your health insurance, if that happens first) to sign up for Part B (Medical Insurance), and you won't pay a late enrollment penalty. • If you don't have to pay a premium for Part A (Hospital Insurance), you can choose to sign up when you turn 65 (or anytime later). Do I qualify? ⓘ • Your job-based insurance pays first, and Medicare pays second.
You (or your spouse) are: • Still working at a job that has fewer than 20 employees • Have health insurance from that job	• You can wait until you (or your spouse) stop working (or lose your health insurance, if that happens first) to sign up for Part B (Medical Insurance), and you won't pay a late enrollment penalty. • Ask the employer that provides your health insurance if you need to sign up for Part A and Part B when you turn 65. If you don't sign up for Part A and Part B, your job-based insurance might not cover the costs for services you get. • If you do get Medicare and keep your job-based insurance, Medicare pays for services first, and your job-based insurance pays second.
You (or your spouse) are still working and have health insurance, but it's not from a job (like Medicaid or Marketplace).	• Answer a few questions to find out when to sign up and other important information you need to know, based on the specific type of coverage you have. • The rules vary depending on what type of other health insurance you have. Contact your health insurance to get more information.
You're still working and are self-employed or have health insurance that's not available to everyone at the company.	• Ask your insurance provider if your coverage is employer group health plan coverage (as defined by the IRS.) If it's not, sign up for Medicare when you turn 65 to avoid a monthly Part B late enrollment penalty. • If you have retiree coverage from a previous job, it may not pay for your health services if you don't have both Part A and Part B. Ask your benefits administrator how your retiree coverage works with Medicare.

Visit 1 – Vision and Analysis

The screenshot shows the Trulip Retirement Planning website. The header features a large image of a snow-capped mountain with the text "TRULIP RETIREMENT PLANNING" overlaid. Below the header, there are two buttons: "SCHEDULE A PRIVATE VISIT" and "ATTEND A LOCAL EVENT". The main content area is divided into two columns. The left column features two headshots of advisors: Casey Croysdale, CFP®, IAR, IA, and Justin McGuffey, IAR, IA. The right column contains text about the company's mission and the services they provide, including a "LEARN MORE" button at the bottom.

Additional Disclosures

Investment advisory services offered through Portfolio Medics, LLC a SEC-Registered Investment Advisor. Portfolio Medics, LLC does not provide legal or tax advice. Investment Advisor Representatives of Portfolio Medics may only conduct business with residents of the states and jurisdictions in which they are properly registered or exempt from registration requirements. This summary is for informational purposes only and shall not constitute advice, an offer to sell, or a solicitation of an offer to buy any securities and may not be relied upon in connection with any offer or sale of securities. The contents of this report should not be relied upon in making investment decisions. The accompanying performance statistics are based upon historical performance and are not indicative of future performance. Past performance is no guarantee of future performance or profitability. The types of investments discussed also do not represent all the securities purchased, sold or recommended for clients. Stated information is derived from proprietary and non-proprietary sources that have not been verified for accuracy or completeness. While the firm believes this information to be correct, we do not claim or have responsibility for its completeness, accuracy or reliability. Views expressed by Trulip Planning, LLC and Trulip Investment Management, LLC do not reflect the opinions of Portfolio Medics, LLC. The firm also assumes no duty to update any information in this presentation for subsequent changes of any kind. Insurance and annuity products are sold separately through Trulip Planning, LLC. Securities transactions for Portfolio Medic clients are placed through Axos Advisor Services, TD Ameritrade, and Nationwide Advisory Solutions. Your investment advisor may recommend third-party money managers who utilize investment strategies designed to minimize portfolio volatility and reduce the risk of declines in account values. Like any other investment strategy, this approach entails risks, including the risk that client accounts can still lose value and the risk that a defensive position may, at any given point in time, prevent client accounts from appreciating in value. Insurance and annuity products are not sold through Portfolio Medics. Portfolio Medics does not endorse any annuity or insurance products, nor does it guarantee their performance. Owners of these products are subject to the terms and conditions of the policies and contracts of the issuing companies. All product guarantees depend on the insurance company's financial strength and claims-paying ability.
